Hiring Manager

Respected Sir/Ma'am,

I'm excited to be applying for the Software Development Engineer. I am a pre-final year undergrad pursuing Computer Science and Engineering at the Indian Institute of Information Technology, Nagpur, Maharashtra.

I am very interested in Data Structures, Web Development, Algorithms, Competitive Programming, and their applications. I have been doing Competitive programming for the last 3 years. I have also been exposed to a variety of programming languages like C++, C, Python, Java, and Concepts of object-oriented programming,Data Structures and also have an experience of many web development project which already mentioned in my CV and GitHub link, I believe that I would fit for this position because I have a strong command on Data Structures and Algorithms and a motto of "never giving up".

Because of my experience in the field of Project Development, I believe that I would make an excellent addition to your team. Looking forward to hearing from you!

Thanks and Regards
